The reports which are coming to hand make it possible to record each day more fully the importance of the success obtained by our recent offen-sive movement in the Champagne dis-trict, combined with that of the allied

troops in the Artois district.

The Germans have not only been compelled to abandon along an extended front certain positions, strongly intrenched, in the defence of which they had been ordered to resist to the very end, but they have suffered losse: the total of which in killed, wounded and prisoners amounts to more than the effective strength of three army

corps (120,000 men). The total num-ber of prisoners is at the present time in excess of 23,000 men, the number of cannon brought to our rear is seventy-nine. Seventeen thousand and fifty-five private soldiers and 316 officers, taken prisoner by us, already have gone through the town of Chalons on their way to the points where they are to be interned. Organized efforts are at present un-

der way to clear up the field of battle and to take definite count of the arms of all kinds and of the war material belonging to the artillery and infantry branches which the enemy has been compelled to abandon to us.

In the Artois district the progress reported yesterday to the east of Souchez continued yesterday evening, and in the course of last night after a No. 140, the culminating point of the crests of Vimy and the orchards to the south of this point. The number of unwounded prisoners made by us in the course of this fighting is more than 300, the men belonging mostly to the two divisions of the guard In the Champagne district the fighting is going on without respite along the entire front. In the region to the north of Massiges, further in, groups
